Wireline logging cable

Electro-Optic Armoured Wireline Logging Cable

Wireline logging cable

Wireline logging cable | Order-specific design

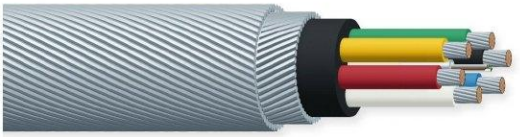

TEBAOFLEX ELECTRO-OPTIC ARMORED WIRELINE LOGGING CABLE

Application

Downhole tool power and telemetry connection with a load-bearing protective construction. Working tension, drum geometry and well conditions define the design.

Typical uses: Oil and gas, Marine and offshore, Condition monitoring

Construction

TEBAOFLEX ELECTRO-OPTIC ARMORED WIRELINE LOGGING CABLE

Cross-section, not to scale

1	Conductor	Copper
2	Insulation	Polymer insulation
3	Metallic armour	Metallic armour
4	Outer sheath	Metallic armour

Technical data

Typical values

Service profile	Installation-specific duty	**Water exposure**	Specify depth, pressure and water chemistry
Chemical compatibility	Verify against the actual fluid and temperature	**Standards**	Order-specific design

Sizes

1 standard constructions

Tick the sizes you need and send this page to info@tebaoflex.com or WhatsApp +86 185 9591 3361.

	Configuration	Rated voltage	Insulation	Outer sheath	Core arrangement
☐	**Electro-Optic Armoured Wireline Logging Cable**	–	**Polymer insulation**	**Metallic armour**	**Power and signal elements**

– This reference row describes a construction, not an orderable size. Provide the required core count and cross-section with the enquiry.

Standards and approvals

Certifications

Management systems: ISO 9001, ISO 14001, ISO 45001

Request a quotation

Send the size, length and destination. An application engineer replies within 2 business hours.
