Subsea cable assembly

Series 700-HV

6.6 kV Subsea Power & Control Cable Assembly

Subsea cable assembly

Subsea cable assembly **Order-specific design**

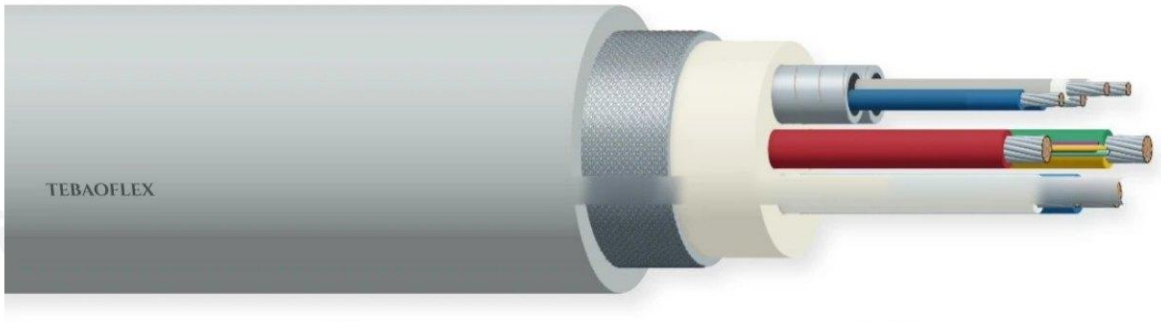

Application

Subsea power, signal or optical interconnection. Cable, connector and sealing interfaces are specified as a complete assembly for the installation.

Typical uses: Oil and gas, Marine and offshore, Condition monitoring

Construction

Cross-section, not to scale

1	Conductor	Copper
2	Insulation	Polymer insulation
3	Outer sheath	Application-specific polymer

Technical data

Typical values

Rated voltage	6.6 kV	Service profile	Fixed installation with installation flexing
Water exposure	Specify depth, pressure and water chemistry	Chemical compatibility	Verify against the actual fluid and temperature
Standards	Order-specific design		

Sizes

1 standard constructions

Tick the sizes you need and send this page to info@tebaoflex.com or WhatsApp +86 185 9591 3361.

	Configuration	Rated voltage	Insulation	Outer sheath	Core arrangement
☐	Series 700-HV	6.6 kV	Polymer insulation	Application-specific polymer	Power and signal elements

– This reference row describes a construction, not an orderable size. Provide the required core count and cross-section with the enquiry.

Standards and approvals

Certifications

Management systems: ISO 9001, ISO 14001, ISO 45001

Request a quotation

Send the size, length and destination. An application engineer replies within 2 business hours.
